superb

This is cool! It really helps me out – it is sup

Assistive Technology Version

Developed in conjunction with RJ Cooper & Associates. OnScreen / WordComplete / Action Panels used under license. Seamless integration with RJ Cooper's CrossScanner for single switch operation.

WordComplete - Adaptive Word Prediction and Completion

The WordComplete / Action Panel actively selects words as the user is typing. The words are sorted by frequency of use, pulled from an editable list based on the letters already typed. Selection results in the automatic completion of the word.   New words are automatically added. Suffix selection is available, and an Undo option reverses the last command.

The World's Premier On-Screen Keyboard!

The Keyboard panel has over 200 layouts available, including International, an alphabetic ABC layout for new computer users & children, and 3 DVORAK layouts for the physically challenged. OnScreen also provides ADA compliance for corporations, institutions, & government agencies. Ideal for Non-Typists! Heads-up display keeps your eyes on the screen at all times. The Edit Panel and the Numeric Keypad Panel are available as individual

OnScreen™

formerly My-T-Soft®AT

On-screen Keyboards!

❋ Virtual Keyboard interface provides a heads-up display that creates an entirely new way to operate Windows

❋ Acts Exactly like a physical keyboard!

❋ International, Alphabetic, Standard & Dvorak layouts available

❋ Floats above all other windows for intuitive operation

❋ Enhances other text input methods

❋ Lockable keys with audio & visual feedback

❋ WordComplete provides Adaptive Word Prediction & Word Completion - New words are added automatically & frequency sorted
Features & Functions...

➤ Customizable audio feedback provides description of keys & functions

➤ Text-To-Speech Enabled - includes Repeat Option

➤ Text-To-Speech Speak and Setup Utility included

◁ Word Lists are User editable

◁ Manage, Save, & Install Word Lists

➤ Read in files, add to active Word List

❋ Assistive Technology version developed with expert guidance & user input

❋ Two Operation Modes - Basic & Advanced

❋ Automatic Screen Positioning & arrangement of other windows creates optimum operating environment when used as the primary text input device

❋ Assistive Features include selection of common suffixes, automatic U after Q, spacing after punctuation, automatic Capitals for new sentences, and an Undo feature that reverses the last WordComplete action

❋ Add-Ons include TurnAway for Head Mouse users, Network Logon, Word List Assistant, and International Word Lists

➤ Automatic Dwell feature sends button press after selectable delay period - allows a user to operate OnScreen without the need to press a button!

➤ Advanced Settings give power users additional features & control options

➤ Ability to remap key functions

➤ Over 60 different User selectable button actions

◁ Visual Enhancements include Key Highlight and Key Zoom

◁ Automatic Scroll options allow larger sizes

◁ Infinite sizes, 3D keys, + transparency in 2k/XP/Vista

➤ Keystroke Macro features allow user to build keystroke sequences and assign them to Macro buttons, grouped on separate Macro Panels

☑ Over 200 Keyboard Layouts Available!

Unlimited Macro Panels can be created for any task, providing flexibilty and ease of use. A single Click can replace hundreds of Keystrokes, allowing Users to replace repetitive tasks, and complete complex functions with a single action.

Powerful Software!

Works with any Mouse, Trackball, Pen, Touchscreen, or Windows pointing device

Also works with the Head Mouse, Foot Mouse, Eye Mouse, Quadjoy, CrossScanner, Joystick-To-Mouse, and many other Adaptive / Assistive Technology pointing devices

Software Requirements
Microsoft Windows 7 / Vista / XP / 2000. Windows compatible pointing device. Contact IMG for Licensing Options.

For Thin-Client / Citrix / Terminal Server applications, use My-T-Soft TS.

OEM versions, Individual Components, Network and Site Licenses are available.
